

Protecting the water quality of Lake Waukegan: Stormwater Improvements Tour at the Waukegan Street Bath House

Wednesday, August 23rd, 6pm
(Tentative rain date: August 29th)

72 Waukegan St., Meredith, NH

Agenda

- **Introduction and background to project:** Waukegan and Winona Watershed Restoration Plan: Pat Tarpey, Executive Director, Lake Winnepesaukee Association
- **Walk through and discussion of stormwater practices installed:** Mike Faller, Director, Meredith Public Works Department
- **Rain Garden bio-retention basin:** Pat Tarpey, Lake Winnepesaukee Association
- **Operations and Maintenance:** Mike Faller and Vint Choiniere, Director, Parks & Recreation

Public is invited to tour this site and learn how the Town of Meredith and the Lake Winnepesaukee Association partnered to reduce the amount of pollutants and sediment that reach the lake from this site.

Note: The tour will be filmed and posted on the Lake Winnepesaukee Association's website, and may also be posted on the Town of Meredith's website.

Site before stormwater treatment practices installed.
