

Working for Clean & Healthy Lakes

Webinar Series

New Hampshire is home to nearly 1,000 lakes and ponds. While our state boasts some of the cleanest and healthiest lakes in the country, they face many threats. Tune in and hear how biologists, nonprofit organizations, and volunteers are working together to monitor our lakes and keep them clean and healthy—and learn how you can help! These webinars are FREE, but pre-registration is required and space is limited. Read on below to find out more and register at nhlakes.org/healthy-lakes-webinars.

Cyanobacteria Monitoring in New Hampshire's Lakes

Wednesday, July 8, 7:00 – 8:00 p.m.

Cyanobacteria blooms have already been seen in some of New Hampshire's lakes this summer. Learn what cyanobacteria is, what blooms look like, and what to do if you think you've spotted one. Presented by Amanda Murby McQuaid, Ph.D., Harmful Algal and Cyanobacteria Bloom Program, New Hampshire Department of Environmental Services.

Preventing the Spread of Invasive Species in New Hampshire's Lakes

Wednesday, July 15, 7:00 – 8:00 p.m.

The spread of invasive animals in our lakes is on the rise. Find out why invasive species are a problem and what is being done to prevent their spread—and how you can help! Presented by Amy Smagula, Exotic Species Program Coordinator, New Hampshire Department of Environmental Services, and Krystal Costa Balanoff, Conservation Program Coordinator, NH LAKES.

How Healthy are New Hampshire's Lakes?

Wednesday, July 22, 7:00 – 8:00 p.m.

Ever wonder just how healthy they really are? Learn what the data tells us about water quality trends and how you can help monitor the health of our lakes and ponds! Presented by Kirsten Nelson, Aquatic Ecologist, New Hampshire Department of Environmental Services, and Dave Neils, Chief Aquatic Biologist, New Hampshire Department of Environmental Services.

Loon Monitoring & Recovery in New Hampshire

Wednesday, July 29, 7:00 – 8:00 p.m.

Loons are an iconic symbol of New Hampshire's pristine lakes. Attend this session and find out how loons are doing in New Hampshire and how you can help monitoring and recovery efforts. Presented by Caroline Hughes, Outreach/Volunteer Coordinator, Loon Preservation Committee, and Harry Vogel, Senior Scientist and Executive Director, Loon Preservation Committee.

NH LAKES is the only statewide, member-supported nonprofit organization working to ensure our lakes remain clean and healthy, now and in the future. For more information, visit nhlakes.org, email info@nhlakes.org, or call 603.226.0299.
