Devens Island	1 21	37		In 1861 Diamond Island was home to The Diamond Island House, a hotel
Diamond Island				frequented by summer guests. The Mount Washington and the steamer Lady of the Lake docked at the island as part of their regular stops as a service to their lodgers. At one point it was rumored that the island supported a Brothel in which the patrons would arrive by train and take small boats to the island for the "illicit" entertainment. The hotel also hosted a restaurant and bowling alley and was later moved across the ice to the Weirs and became part of the Hotel Weirs which was destroyed by fire in 1924. During World War II the United States Navy operated a test sight for remote controlled submarines off the north western side of the island. Off the south side of the island remains a US Navy sound test laboratory and is a popular dive site. Today, Diamond Island is home to many summer residents in private cottages and homes. The islands convienient location to the mainland makes it a popular spot once the site of a large hotel known as the Diamond Island House. In 1865, it became the property of the Winnipisseogee Lake Steamboat Company.
